Junior Sailing Association of Long Island Sound

The Junior Sailing Association of Long Island Sound supports its member junior sailing programs through leadership, training, communication and event-scheduling. Its member programs are sponsored by yacht, sailing, beach and shore clubs, associations, and youth and community organizations. The programs are located on tidewater in Connecticut or New York.

Founded in 1924 and incorporated in the State of New York in 1958, the JSA of LIS is an independent, non-profit corporation. The JSA is governed by a Board of Directors elected by representatives from its member programs.

Mission Statement

The Junior Sailing Association of Long Island Sound supports junior sailors at member programs by fostering and coordinating programs and activities that encourage them to experience the joy of sailing and instill a life-long love of this great sport. The JSA promotes ethical behavior among its sailors and encourages the teaching of lessons which build character, foster teamwork and strengthen respect for self and others. The JSA encourages an appreciation and respect for the marine environment so important to sailing. Through its programs and policies, the JSA supports both serious competitors and recreational sailors at all levels of skill and encourages their sailing in local waters and beyond.

JSA of LIS Goals

In order to carry out its mission serving junior sailors in our area, the JSA supports member programs by providing:

- leadership and continuity among member programs in areas including, but not limited to, ethics, boat selection, scheduling and regatta management
- training and support for program chairs, instructors, junior event organizers and other volunteers of member junior sailing programs
- communication through newsletters, general meetings and workshops to benefit program administrators, event organizers, instructors, junior sailors and their parents
- specialized clinics and seminars for junior sailors run by professionals during the summer and off-season
- recognition of sportsmanship and achievement by awarding prizes to junior sailors and instructors.

JSA Code of Ethics

Each competitor deserves respect.

Think before you act.

Have fun!

In victory and in defeat, be gracious.

Comply with the rules.

Sail smart, sail fair, sail fast.

"You haven't won the race, if in winning the race you have lost the respect of your competitors." Paul Elvstrom (4 time Olympic Gold Medalist)

Every instructor who is employed by a JSA member program and is serving on board the boat as an advisor is required to comply with the Navigation testing requirements.
- Any junior sailor wishing to compete for the JSA Junior Navigation Trophy should take the Advanced test in the current year on the original testing date. Make-up tests may not be considered for the trophy unless specified in the notice for the test.
- Crewmembers and instructors who have scored 80% or higher on the Advanced written test in the prior year on the original scheduled test date (not on a make-up

test) are not required to retake the exam in the current year. However, each program is required to send a minimum of three sailors to take the Seamanship test each year, regardless of scores on the Navigation test.

F.5 Minimum Required Equipment for Sailors participating in any JSA PHRF event

- For the purposes of this section, the Storm Trysail/JSA Junior Safety at Sea seminar is considered a JSA PHRF event.
- All advisors shall wear US Coast Guard approved PFDs at all times while on deck, coming on deck, or going below. This modifies the Minimum Equipment & Safety Recommendations of the Y.R.A. of Long Island Sound: Category B Section 4.0 and Fundamental RRS 1.2 and JSA 3.1.
- All junior sailors and instructors shall equip themselves with a personal strobe light and a harness (complete with a tether) for use at night and in other circumstances described in the most recent Minimum Equipment & Safety Recommendations of the Y.R.A. of Long Island Sound, Section 4 – Safety equipment to be worn.

F.6 Minimum Required Equipment for Boat

- Each boat must follow the most recent Minimum Equipment & Safety Recommendations of the Y.R.A. of Long Island Sound: Category B. (See www.yralis.org > Safety).
- Jack lines shall be installed before the boat leaves the dock and a sharp knife shall be kept in the cockpit. Each boat shall have a hand-held VHF radio and a VHF radio capable of receiving automatic weather alerts and tones. This modifies the Minimum Equipment & Safety Recommendations of the Y.R.A. of Long Island Sound.
- Each boat shall certify that it is in compliance with the Minimum Equipment and Safety Recommendations by completing a Self Inspection Certificate for each regatta.

F.7 Vessel Eligibility

To be eligible to participate in any JSA PHRF event, vessels shall be a monohull conforming to the following requirements:

- The vessel shall be a minimum of 27' and a maximum of 44' in overall length. The OA of an event shall have the ability to include vessels outside this size range
- Any vessel classified as a "sport boat" may be allowed to race in a "Sport Boat Division" if that division is included in the regatta at the discretion of the Organizing Authority. A vessel will be considered a sport boat if it meets three of four of the following criteria:

#1)- Displacement-Length Ratio less than 100. Displacement-Length Ratio shall be calculated using the empty weight in pounds (DISPL LBS) and the length at water line (LWL) of the vessel; both values shall be as noted on the current PHRF certificate. Displacement- Length Ratio shall be calculated as $D/L = (DISPL/2240) / (0.01 * LWL)^3$

#2)- Upwind sail area/displacement ratio greater than 30. Upwind Sail Area-Displacement Ratio shall be calculated using the area, in square feet, of the main plus the fore-triangle area, as determined by the calculations noted below, and the empty weight in pounds (DISPL LBS) of the vessel as noted on the current PHRF certificate. Upwind Sail Area-Displacement Ratio shall be calculated as $SA/D = \text{Sail Area}/(DISPL/2240)^{2/3}$

#3)- Downwind Sail Area-Displacement Ratio greater than 75. Downwind Sail Area-Displacement Ratio shall be calculated using the area, in square feet, of the main, as determined by the calculation noted below, plus the largest spinnaker, as determined by the sailmaker, and the empty weight in pounds (DISPL LBS) of the vessel as noted on the current PHRF certificate. Downwind Sail Area-Displacement Ratio shall be calculated as $SA/D = \text{Sail Area}/$

(DISPL/2240)^{2/3}

#4)- A sprit length (TPS) more than 50 percent of J. The sail areas are computed using the fore-triangle area ($I \times J \times 0.5$) and mainsail area ($P \times E \times 0.5$) which do not take into account jib overlap or mainsail roach. Dimensions used shall be as noted on the vessel's current PHRF certificate. A worksheet for these calculations may be found in the Junior Big Boat section of the JSA website <https://jsalis.org/about/big-boat-program>.

- Each entry must have a fixed and functioning head.

F.8 Operation of Boat

- The boat owner or the owner's representative has the final say in matters pertaining to the safety of the crew and the boat. (RRS Fundamental Rule 4)
- The advisors shall refrain from assisting the sailors with racing strategies and steering except when a safety issue is involved
- If safety is a factor, the Owner or Advisor may take the helm, issue orders, use the engine, or take appropriate action. Any such intervention should be recorded, in detail, in the log. At the very least, such detail shall include the GPS coordinates and time for both the start and finish of the period in which the adult advisor intervenes under this section. Immediately upon finishing, the yacht shall inform the race committee that an owner/advisor intervention has occurred and that there will be a submission. That submission is due in writing the later of noon the day following the start, or 12 hours after finishing, whichever is later. The judges will evaluate the situation to determine if a time adjustment or other penalty is required. Such action will not be grounds for automatic disqualification.

APPENDIX G - O'pen Skiff Specific Rules

G.1 Age

- An O'pen Skiff sailor may compete in the appropriate age division:
U13 Division : Boy or girl under the age of 13 years old
U17 Division : Boy or girl under the age of 17 years old

C.2 Number of Crew

- The O'pen Skiff is to be sailed with one sailor in the boat.

O'pen Skiff Inspection Checklist

- Floating towing rope of minimum length 33 ft (7 m) and a minimum thickness of 5/16" (8 mm) shall be securely fixed to the mast at all times when afloat.
- Clothing and equipment worn or carried by the crew shall not weigh more than 20 lbs. (9 kg) when weighed in accordance with RRS Appendix H

APPENDIX H - SEASON TROPHIES

Season Trophies are awarded for best finishes at JSA events (now scored using a low point method after decades of using a high point method):

The Clinton M. Bell Trophy for ILCA 7, ILCA 6 or Club 420
The Christopher Goodyear Neff Trophy for runner-up in ILCA 7, ILCA 6 or Club 420s

The Thomas W. Fowler, Jr. Trophy for double handed events (Club 420s)
The Ryan J. Weiss Memorial Trophy for RS Feva events
The Optimist season trophy for Optimist events

The Qualifying Events for each JSA Season Trophy are the four championship qualifier regattas for the boat class that are designated in the Rules for JSA Events, and the JSA championship for the boat class.

A skipper must be a Junior Sailor Member of the JSA, be associated with a Member Club, participate in 75% of the boat class Qualifying Events and participate in the boat class Championship Event in order to qualify for the Season Trophies. For any boat class to qualify for scoring in competition for perpetual Season Trophies there must be at least 10 starters for that class in more than 50% of the races sailed. Sailors may qualify as co-skippers for Season Trophies only if they sail together in all their qualifying events as co-skippers.

No competitor who has been penalized for a breach of Racing Rule 2 (Fair Sailing) or warned or penalized for a breach of Racing Rule 69 (Allegations of Gross Misconduct) shall be eligible to compete in any JSA championship event or receive any JSA season trophy during the calendar year of said breach.

A helmsman or crew may compete for the Clinton Bell and Goodyear Neff trophies by sailing in two different classes in qualifying events. The sailor must notify the JSA office prior to a qualifying event if he will be sailing in a class other than his regular class. Regular class is defined as the class in which he entered the first qualifying event. A sailor may sail the events in one of the following combinations: ILCA 7 and 420 or ILCA 6 and 420. A sailor may not switch between the two Laser classes.

For the purpose of awarding season trophies, races will be scored on a high point system. It should be noted that a high point system favors the boats with the larger fleet and that this reflects the desire to award these trophies to the sailors who have beaten the most competitors. One point is awarded for finishing and one point for each starting boat defeated. A boat withdrawing, not finishing, disqualified, or not participating shall be scored zero points for that race. Individual scores will be determined by dividing the total number of points a sailor receives in their best 75% of the boat class Qualifying Events and 130% of the total number of points a sailor receives in their boat class Championship event by the maximum number of points that the sailor could have received in each of the races in which the sailor participated. The resulting percentage shall be figured to three decimal places. In case of a tie, the sailor that has won the greatest number of first places shall be awarded the place tied for and the other sailor the next succeeding place. If the tied sailors have an equal number of firsts, then seconds, thirds, etc., and the finish positions at the boat class Championship, shall be taken into consideration in breaking the tie. No special race, in which all participants are not allowed to participate, will be used in computing scores for the Qualifying Events.
