

JSA Program Management Best Practices Knowledge Base

JSA is asking clubs for samples (or URL links) of their junior handbooks, policies, newsletters, slideshows and videos, etc., so all JSA clubs may browse and see the variety of practices and activities outside of their own clubs.

Would your club like to contribute to this project? If so, please email the JSA office at info@jsalis.org with the public URL links to the material on your website. If your website restricts public access, but you'd like to share samples, please email copies of your documents to the JSA office.

The Knowledge Base is located in the *Program management resources* section of the JSA website at www.JSALIS.org

Take a look at what we have in place already and please do share your junior program information as well.
